

CASE STUDY

Service: Surface Preparation

Project: Various

Location: Various

Equipment overview

ERS have an extensive range of floor preparation equipment ranging from Closed circuit recovery floor blasters, 3 headed planetary floor grinders, hand held single headed grinders, surface scabblers and STR scarifiers. All of our equipment is vacuum assisted and virtually dust free. All plant operators are fully trained and certificated.

Special considerations

As with any coating the floor preparation is key to any successful application. Whether you are looking to apply a floor coating or you just want an existing coating removed ERS have the machinery and know how to assist with all of your needs. If power is an issue ERS have a full range of generators including 3 Phase. ERS are also product applicators for most of the countries leading product manufacturers and will be happy to quote for the new product application once the prep work has been completed.

Why choose ERS

ERS are a well established company that prides itself on customer service. All contracts will be fully surveyed prior to any quotation being forwarded this will eliminate most issues that may arise during the preparation works. A full report will be submitted and a comprehensive health and safety file will be issued prior to any works being undertaken.

Existing Clients include: Honeywell Aerospace, McKay Foods, The Rivita Company, Lush Manufacturing, Perrigo Pharmaceutical, Heinz, Wates Construction and many more.
